(i) About Gaza-Strip

The Gaza Strip is home to a population of approximately 1.9 million people, including 1.3 million Palestine refugees. For the last decade, the socioeconomic situation in Gaza has been in steady decline. The blockade on land, air and sea imposed by Israel following the Hamas takeover of the Gaza Strip in 2007, entered its 10th year in June 2016 and continues to have a devastating effect as access to markets and people's movement to and from the Gaza Strip remain severely restricted. Years of conflict and blockade have left 80 per cent of the population dependent on international assistance. The economy and its capacity to create jobs have been devastated, resulting in the impoverishment and de-development of a highly skilled and well-educated society. The average unemployment rate is well over 41 per cent - one of the highest in the world, according to the World Bank.
